

Information on the Registration of Vaccination History for those who have Completed Overseas Vaccination to have their Third Vaccination.

Overview

- Foreigners* who have been vaccinated COVID-19 from abroad but there is no quarantine exemption at the time of entry in Korea is can received a third dose in Korea

* (Foreigners with overseas vaccination) Registration of overseas vaccination history only for those who have a quarantine exemption paper (2021.10.7~)

- Those who have been vaccinated by the USFK* (United States Forces Korea) but have been unable to register their vaccination history due to changes in their affiliation such as retirement is also can register their vaccination history.

* (Those who were vaccinated in the U.S. Forces Korea) Issuance of vaccination certificate is after registration of vaccination history in U.S. Forces Korea

Purpose

- Through this measure, foreigners who have registered their first and second vaccination history will be issued a confirmation of overseas vaccination (including COOV) for the COVID-19 vaccine, and can apply for the third vaccination and quarantine pass.

Vaccines Can Be Registered

- Only WHO-approved vaccine* applies to vaccination history registration.
- * Pfizer, Janssen, Moderna, AstraZeneca, KoviShield (AZ-India Serum Research Institute), Sinopharm (Beijing), Sinobeck, and Kovaccine
- Foreigners who do not have the quarantine exemption form will have their vaccination history registered in Korea after completing the third vaccination.
- Isolation exemption can also be applied for re-entry and close contact with confirmed patients.

How to register.

- Foreigners who wish to register their overseas vaccination history should bring their ID Cards and Certificates of Vaccination abroad and visit a nearby public health center to register their vaccination history.
